PILOT TEST – PRESS RELEASE

Toolkit ENTRE@VETSCHOOL

Dear collaborators,

CDIMM Maramureș Foundation implements as a partner the project **Promoting key competences (entrepreneurship) through an integrated career orientation programme and flexible learning pathways for vet students (Entre@VETSchools)**, funded by the Programme **Erasmus+** of the European Union. The project focuses on entrepreneurship education activities and the career orientation of students towards entrepreneurship careers in vocational high schools in the 6 member countries of the partnership (Germany, Cyprus, Romania, Greece, UK, Iceland).

The partner organizations have developed a toolkit (**TOOLKIT**) that is not a simple career guide but a Package for the development of **entrepreneurship**. The team of experts of the project has created an interactive **PORTAL** that has the role of facilitating the contact between potential entrepreneurs and the business community. It will help the entrepreneurial education of the beneficiaries and will make available to the wishers the Package for the development of entrepreneurship.

The CDIMM Maramureș Foundation invites you to participate in the **PILOT TEST IN ROMANIA** of the toolkit made for you. The testing will take place between 16 and 18 February, after the following program:
